

### REMARKS

The Application has been carefully reviewed in light of the Office Action dated December 2, 2004. Claims 74, 75, 77 to 82, 84 to 89, 91 to 96, 98 to 103 and 105 to 108 are in the application, of which Claims 74, 81, 88, 95 and 102, the independent claims, are being amended. Reconsideration and further examination are respectfully requested.

Initially, Applicants' undersigned attorney wishes to thank the Examiner for the March 30, 2005 telephone interview. During the interview, it was agreed that a control region and property page as an integral part of a same displayed window would clearly define over the applied art. It was agreed that Applicants would amend each of the independent claims to so state.

Applicants submit that the independent Claims 74, 81, 88, 95 and 102 are in condition for allowance and such action is respectfully requested at the Examiner's earliest convenience.

The other claims in this application are each dependent from the independent claims discussed above and are therefore believed patentable for the same reasons. Because each dependent claim is also deemed to define an additional aspect of the invention, however, the individual consideration of each on its own merits is respectfully requested.

In view of the foregoing, the entire application is believed to be in condition for allowance, and such action is respectfully requested at the Examiner's earliest convenience.

Applicants' undersigned attorney may be reached in our Costa Mesa,  
California office by telephone at (714) 540-8700. All correspondence should be directed to  
our address given below.

Respectfully submitted,
